

Product Production Site Transition Plan

Date : 2020/09/29

By: Kevin Chen/COO

Providing the best cost-performance ratio of standard power supplies and services are MEAN WELL' s enterprise mission. After a thorough evaluation of raw material supplies and the factory production capacity, MEAN WELL carried out the production site transition plan for the following models.

Since October 2020, MEAN WELL has announced the "Product Production Site Transition Plan" on the official website, so that customers will keep abreast of the product production transition plan.

The notice will keep updated. Shall you have any questions, please contact your sale representatives!
