Product Change Notification: 3M™ Strain Relief Clip, 3448-8 for Specialty DIP, 3498-0000 Series

To Our Valued Customers:

3M is changing the finish of the **3M™ Strain Relief Clip, 3448-8 for 3M™ Specialty DIP, 3498-0000 Series** from stainless steel with a gray epoxy coating to stainless steel without an epoxy coating. The change should not affect the strain relief clip's form, fit and function.

Parts without the epoxy coating will be shipping once inventory of existing powder coated parts are exhausted.

The corresponding tech sheet, TS-0021, is being updated to reflect the change and will be posted to the website when finalized and approved.

If you have any questions or require samples for testing, please contact your 3M representative for this product.

Thank you for your understanding and continued partnership with 3M.

Sincerely,

Lindsay Powell
